OBJECTIVE:

AI Developer specializing in Agentic AI, RAG Chatbots, and AI Automation. Experienced in Python, Next.js, FastAPI, OpenAI SDK, API integrations, and prompt engineering. Passionate about building intelligent, scalable solutions that streamline workflows and solve real-world problems.

TECHNICAL SKILLS:

AI & Automation: Agentic: AI Workflows, AI Chatbot Development, Conversational AI, Workflow Automation, Logic-Based Systems

APIs & Integrations: REST APIs, FastAPI, Webhooks, Third-Party Integrations

AI Technologies: OpenAI SDK, Agents SDK, MCP Tools, RAG Pipelines, Prompt Engineering

Programming Languages: Python, TypeScript, JavaScript (ES6+)

Frontend Development: Next.js, React.js, Tailwind CSS, HTML, CSS Web-Based Dashboards

Tools & Platforms: Git, GitHub, Docker, Vercel, Render, Railway , OpenClaw, WhatsApp .

AI PROJECTS:

AI Chatbot Agent — AI-Powered Todo Management System

- Built a full-stack multi-user Todo application with an integrated AI chatbot for task management.
- Enabled users to add and manage tasks using natural-language commands.
- Integrated OpenAI Agents SDK, MCP SDK, FastAPI, and Neon PostgreSQL.
- Tech Stack: Next.js, TypeScript, FastAPI, Python, OpenAI Agents SDK, MCP, Neon DB, Docker.
- [project Demo](#)

OpenClaw AI Automation — WhatsApp Integration:

- Built an AI-powered automation system using OpenClaw to connect AI agents with WhatsApp.
- Integrated WhatsApp as a communication channel for receiving and responding to messages through an AI agent.
- Configured AI agent workflows for automated message processing and task execution.
- Integrated MCP-based tools to extend the agent's capabilities and automate external services.
- **Tech Stack:** OpenClaw, WhatsApp, AI Agents, MCP, Node.js, APIs
- [Project Demo](#)

Full-Stack Web Application:

- Built a full-stack web application with **secure user authentication** and complete task management functionality.
- Implemented **CRUD operations, user-specific data, and responsive UI**.
- Developed and integrated frontend, backend APIs, database, and authentication into a complete application.
- **Tech Stack:** Next.js, TypeScript, FastAPI, PostgreSQL, Tailwind CSS.
- [project Demo](#)

EDUCATION:

Bachelor of Commerce (B.Com) – Shaheed Benazir Bhutto University (SBBU)

Intermediate - Govt Girls Degree College

Governor Sindh IT Initiative (GIAIC) | Artificial Intelligence, Web 3.0 & Metaverse Program

- AI Development, Agentic AI Workflows & OpenAI SDK
- Python Programming & AI Automation
- Frontend Development: Next.js, React.js, TypeScript
- Software Development Life Cycle (SDLC)
